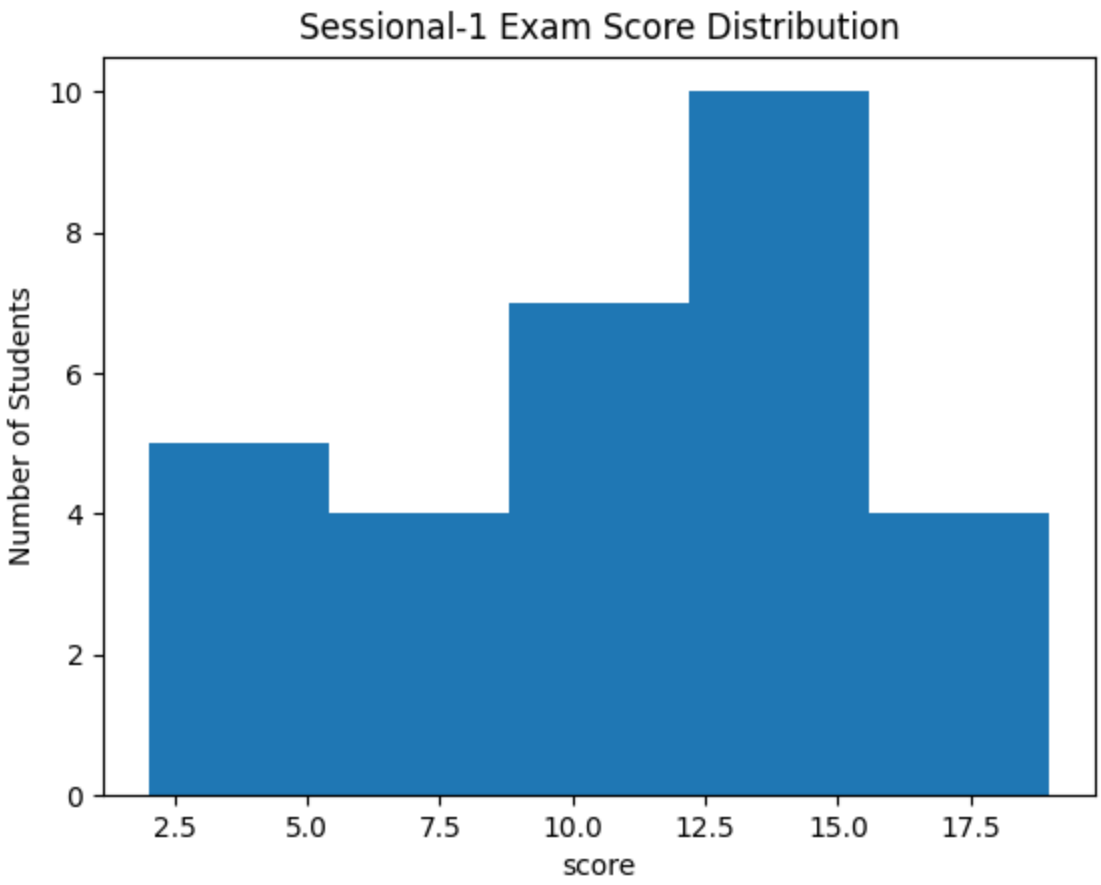
Report Summary
This report presents a comprehensive analysis of the CAO Sessional-1 exam results, highlighting overall performance, pass rates, student distribution across performance levels, and actionable insights.

---

1. Overview of Results

Metric	Value
Total number of students	30
Average score	10.87
Highest score	19
Lowest score	2

The average score of 10.87 indicates a moderate overall performance, with significant variation between the highest and lowest scores.



---

2. Pass / Fail Analysis

Status	Number of Students	Percentage
Pass (≥10)	**19**	**63.33%**
Not Pass (<10)	**11**	**36.67%**

Observation: Approximately two-thirds of the students passed the exam, while one-third did not meet the passing criteria. This suggests that while most students are meeting the minimum standards, a substantial portion requires additional support.

---

3. Performance Levels Distribution

Performance Level	Score Range	Number of Students	Percentage
Strong	**≥16**	**4**	**13.33%**
Average	**10–15**	**15**	**50%**
Weak	**<10**	**11**	**36.67%**

Insights:

- The majority of students fall into the average category, indicating general competency in the course material.
- A small segment of strong students demonstrates high proficiency and potential for advanced learning.
- The significant proportion of weak students highlights areas where targeted intervention is necessary to improve learning outcomes.

---

4. Recommendations

1. **Support Weak Students:** Implement focused tutorials or remedial sessions to help weak students improve their understanding and overall scores.
2. **Engage Strong Students:** Introduce enrichment programs or advanced exercises to challenge and further develop high-performing students.
3. **Review Course Content:** Analyze topics where students scored poorly and consider adjusting teaching strategies or providing additional practice materials.
4. **Monitor Performance Trends:** Track student performance in subsequent sessions to identify improvements and evaluate the effectiveness of interventions.
