BCA + MCA Exam Analysis Report

1. Overview

This report analyzes the results of the **BCA and MCA exam** to evaluate student performance and understand the distribution of academic achievement.

The analysis is based on results from **31 students**.

---

2. Overview of Results

Metric	Value
Total Students	**31**
Average Score	**11.88**
Highest Score	**18**
Lowest Score	**0**

Insight

- The **average score (11.88)** indicates a **moderate level of performance** among students.
- The gap between the **highest score (18)** and **lowest score (0)** shows variation in students' academic performance.

---

3. Attendance and Pass Rate Analysis

Category	Students	Percentage
Pass	**12**	**38.71%**
Fail	**5**	**16.13%**
Absent	**14**	**45.16%**

Insight

- The **pass rate is 38.7%**, which indicates that less than half of the students passed the exam.
- A large number of students (**14 students**) were **absent**, which significantly affects the overall performance analysis.

---

4. Performance Categories

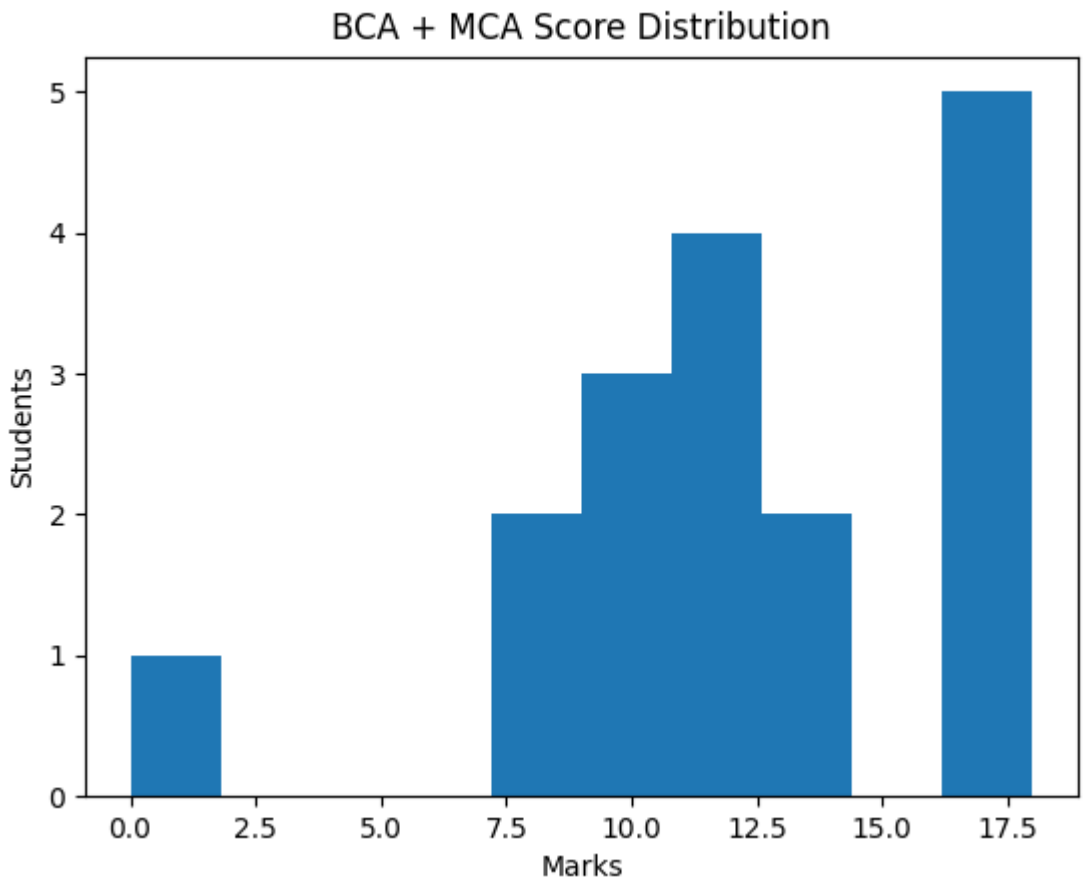
Students were classified into three performance levels:

Level	Students	Percentage
Strong	**5**	**16.13%**
Average	**7**	**22.58%**
Weak	**5**	**16.13%**

Insight

- **16% of students** achieved **strong performance**.
- The largest group falls under **average performance (22.58%)**.

- **Weak students represent 16%**, which is relatively moderate compared to other groups.



5. Score Distribution Analysis

Figure 1: Distribution of Students Scores in BCA + MCA Exam

Key Observations

- Scores are distributed across a wide range of marks.
- A number of students achieved **moderate scores around the average**.
- The high number of **absent students affects the overall performance distribution**.

---

6. Key Findings

1. The **average score (11.88)** indicates a moderate academic performance.
2. The **pass rate (38.7%)** is relatively low compared to the total number of students.
3. A **large percentage of students were absent**, which significantly impacts the analysis.
4. Performance distribution shows a **balanced spread between strong, average, and weak students** among those who attended.

---

7. Recommendations

To improve future exam results:

- Reduce the **number of absent students** by encouraging attendance.
- Provide **additional revision sessions** before exams.
- Focus on **supporting weak students** through extra practice and assignments.
- Encourage students to participate in **more practical exercises and coursework**.
